ABSTRACT

A state and congressional district listing of higher education institutions is presented. The institutions offer at least a one-year program of college-level study leading toward a degree and meet accreditation standards required by the Department of Education. The list includes the names of Senators, Representatives, and other elected officials of the 98th Congress, their states and congressional districts, and each institution of higher education located therein. Institutions are identified by control and type, and 1982 enrollment data are included along with the undergraduate and graduate tuition and fees data for the 1983-1984 academic year. Room and board charges are also indicated, along with number of days per week the college operates. The following categories are included under institutional control: public, nonprofit, and proprietary. Types of institutions include: two-year, general baccalaureate, comprehensive, doctoral-level, special divinity, special engineering, special law, special business, special health, special medicine, special art and music, special education, special nondegree, and newly added. Foreword

The 1983-84 edition of *Institutions of Higher Education: Index by State and Congressional District* lists those institutions in the United States and its outlying areas that are legally authorized to offer and are offering at least a 1-year program of college-level study leading toward a degree. These institutions must also fulfill certain accreditation standards as required by the Department of Education.

This publication was mandated by Congress under P.L. 97-301, Sec. 15, which requires that "The National Center for Education Statistics (NCES) shall collect and publish for academic years 1982 through 1985, tuition and fees data, and room and board charges. . . . The results of such surveys shall be stated so as to display such data by congressional district." This report includes the names of the Senators, Representatives, and other elected officials of the 98th Congress, their States and congressional districts, and each institution of higher education located therein. Institutions are identified by control and type, and 1982 enrollment data are included along with the tuition and fees data for the 1983-84 academic year.

We would like to express our appreciation to all Members of Congress for their cooperation during the verification process. Without their help, this publication could not have gone to press.

Methodology

The institutional data provided in this report, including the tuition and fees and room and board charges, are collected annually by the National Center for Education Statistics (NCES) as part of its Higher Education General Information Surveys (HEGIS) program.

Congressional districts were updated on our file subsequent to the 1982 redistricting, and listings of institutions were sent to each Member of Congress for verification before publication. The names of the Senators and Members of the House of Representatives were obtained from the Clerk of the House of Representatives.

In this *Index,* a branch of an institution that is reported separately for the *Education Directory, Colleges and Universities,* is treated as a separate institution and is listed in the congressional district in which it is located. U.S. Service Schools are listed in the State in which they are located. When district boundaries pass through a campus, the business address determines the district.
